

Lyrics

yellow submarine

In a port we´ve stolen a ship
With my mates we sail the sea
And then began the night.
We´ve turned into dolts

So we´re drunk on our board
Once we´ve seen pirates
And we dolts hit their ship
And then started our war

We are dolts in the middle of a war
Middle of a war, middle of a war
We are dolts in the middle of a war
Middle of a war, middle of a war

But pirates are experts
We hadn't any chance and lost the war
Our ship is going down

We were dolts in the middle of war
Middle of war, middle of war.
We are dolts in the middle of a war
Middle of a war, middle of a war
