

## **Lyrics**no more war

War throughout the country When you wake up Everywhere, anywhere, anyplace Blood blood blood Where is your peace? Where is your happiness? Blood will not flow in the country We are only brothers in this small world Blood won't flow in the country You, you, you, you man You're telling me you stop Everywhere today flowing Blood blood blood It's surely enough for us We say we stop the war It's surely enough for us Stop the game we say If you can die today With this stupid game Everywhere today it's flowing blood blood blood You know the rule From this stupid game And the dirt of the war You know how to look after The beautiful days They're coming quite soon - restored The sun rises The flowers flourish Bella Ciao Ciao Ciao Bella Ciao Ciao Ciao All those passing by Will greet us And say: "Hello, my beautiful child".
